PROFESSIONAL SUMMARY

BCA student experienced in building cross-platform mobile apps with Flutter and modern web applications with Next.js, React, and TypeScript. Skilled in Firebase integration, scalable architecture design, and production deployments via GitHub Releases and Vercel. Focused on crafting real-world software with responsive, modern UIs.

TECHNICAL SKILLS

Languages:	Dart, JavaScript, TypeScript, SQL
Frontend:	Flutter, React, Next.js, Tailwind CSS, HTML, CSS
Backend & Database:	Firebase (Auth, Firestore), Node.js, MySQL
Tools & Platforms:	Git, GitHub, Firebase Console, Vercel, VS Code

CLIENT PROJECT EXPERIENCE

Raahi Global — Client Project | German Language Learning Platform

Flutter · Dart · Firebase Authentication · Cloud Firestore · Firebase Cloud Messaging · Riverpod · GoRouter

- Developed a cross-platform Flutter application for a German language learning and student support platform.
- Implemented student onboarding, profile completion, course enrollment, and structured A1–B2 learning content.
- Integrated Firebase Authentication and Cloud Firestore for secure authentication and application data management.
- Built role-based interfaces and an admin dashboard for managing platform content and student workflows.
- Integrated Firebase Cloud Messaging for push notifications and GoRouter for in-app navigation.
- Prepared versioned release builds and supported the testing and Google Play deployment workflow.

GitHub | Google Play Store

PROJECTS

PULSE - Attendance Intelligence Platform

Flutter · Dart · Firebase · GitHub

- Built cross-platform attendance tracking app with real-time analytics, subject-wise insights, and attendance prediction.
- Designed responsive Flutter frontend with Firebase Auth and Firestore backend integration.
- Built scalable analytics system and automated APK deployment via GitHub Releases.

GitHub · APK Release

PULSE Official Website

Next.js · React · Tailwind CSS · Node.js

- Built official responsive web platform for the PULSE ecosystem with mobile-first layouts.
- Created scalable landing pages with modular component architecture and clean UI/UX.
- Added smooth animations and interactions for an engaging experience.

GitHub · Live Website

Typro - Neuromorphic Typing SaaS Platform

Next.js · TypeScript · Tailwind CSS · Vercel

- Developed a SaaS-style typing platform with neuromorphic UI and responsive frontend.
- Designed custom neuromorphic components and optimized TypeScript codebase for maintainability.
- Built responsive layouts with Vercel-powered CI/CD for continuous delivery.

GitHub · Live Website

EDUCATION

Bachelor of Computer Applications (BCA)

St. Francis College, Bengaluru · 2024 - 2027 · 4th Semester

ACHIEVEMENTS

- Secured 2nd Prize in Mind to Machine innovation event conducted at department level

LANGUAGES

English, Kannada, Telugu, Tamil, Hindi
